National Evangelical Alliance Development Indicators

A National Evangelical Alliance (NEA) is an expression of the Christian unity that Jesus prayed for in John 17. While each Alliance is unique as it enables the Church to advance the Good News of Jesus Christ, there are common measurable qualities that demonstrate an Alliance's health and effectiveness. These *qualities* include both the organizational and functional *indicators*.

1. Unity

A healthy Alliance engages a broad spectrum of churches, organizations and individuals who affirm a WEA aligned statement of faith to unite them for missional action. Collaborative activities demonstrate healthy and inclusive diversity in gender, age, ethnicity, denomination, social sectors, and socio-economic relationships.

2. Voice

A healthy Alliance represents evangelicals with a proactive, prophetic and peacemaking voice to government, media and society.

3. Service

A healthy Alliance serves its constituency with relevant and impactful programs, products and services resulting in their growing member involvement in the Alliance.

4. Vision

A healthy Alliance provides visionary leadership that motivates its members and national leaders toward common goals that advance the Kingdom of God.

5. Leadership

A healthy Alliance maintains governance with clear structures, efficient processes and executive staff that hold it accountable to its mission and constituency. Its leadership develops culture, with succession planning that engages younger leaders at every level of the organization.

6. Sustainable

A healthy Alliance funds activities with diverse streams, including membership dues, sales, contributions in kind and donations. It manages finances with integrity and transparency and is financially self-sustaining.

7. Partnership

A healthy Alliance partners with others and contributes to the initiatives and programs of its regional alliance and the WEA.
